

# Endpoint and Whitelisting

Block unauthorized executables and potential threats on servers and workstations.

**Novaspect's Endpoint Protection and Application Whitelisting for Industrial control systems** provides a centrally-managed solution to help protect your systems from cybersecurity threats. Our solution uses vendor-supported solutions to block unauthorized executables and potential threats. Our solution is designed to protect your systems with no impact on system performance or operations.

## KEY COMPONENTS

- **Decrease risk** with industry leading endpoint protection.
- **Centralized management** of endpoint protection and application whitelisting.
- **Vendor-supported** solutions.
- **Designed to protect** system performance for no impact to operations

## Cybersecurity Packages

### CORE

- Unmanaged endpoint protection
- Not available for systems over a few nodes
- Not recommended due to definition updates requiring manual intervention at each node

### ADVANCED

- Managed endpoint protection
- Combined management server and agent handler on plant LAN or L2 network
  - Definition updates deployed through the management server

### PREMIUM

All advanced features, plus:

- Application whitelisting
- Management server in DMZ
- Agent handler at L2
- Automatic definition updates provided through co-deployed IPM or internet connection provided by others
