

# VRG Service Training for Impact Partners

Tuesday & Wednesday

**June 27–28, 2023**

Novaspect / Midwest Valve Services:

6243 NE Industry Drive, Des Moines IA 50313

Cost: \$950.00 per person; Lunch will be provided.

## VPC Valve Pilot Controllers

VPC Incorporates Six (6) Common Control Springs Across All VPC Ranges

Large diameter diaphragms provide an 18% increase in area as compared to similar technologies, making the VPC design more sensitive to changing conditions.

Military Grade Aluminum Alloy with "Sealth System" Corrosion Protection Stands Up to the Harshesht Environments and Resists Corrosion

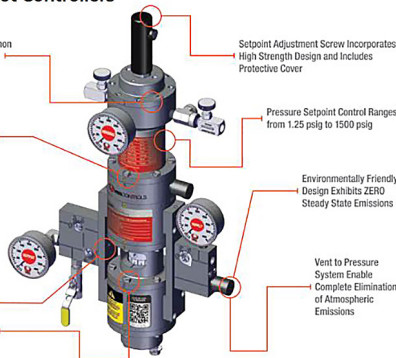

Heavy Wall Construction for Better Corrosion Resistance at Bolted Connections

Setpoint Adjustment Screw Incorporates High Strength Design and Includes Protective Cover

Pressure Setpoint Control Ranges from 1.25 psig to 1500 psig

Environmentally Friendly Design Exhibits ZERO Steady State Emissions

Vent to Pressure System Enable Complete Elimination of Atmospheric Emissions

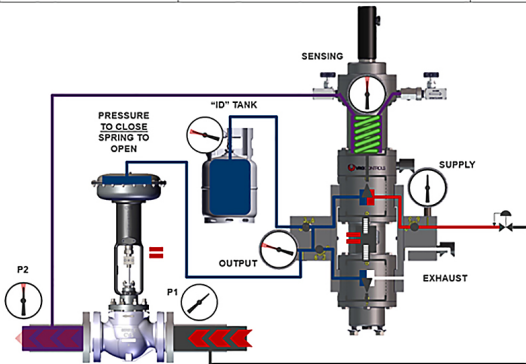

## VRG Training Agenda & Resources

- Overview of the VPC Controller
- Shop Install & Settings
- Field Setup & Commissioning
- VPC-Recommended 5-Year Maintenance
- Hands-On Training
- Teardown
- Repair Procedure
- Assembly & Testing
- Full Schematics, Videos & Training Materials Available
- Recommended Experience with Tech II Level, FIELDVUE, C1, 4195

VPC-SA-BV-ID (DIR) How It Works  
Setpoint Satisfied / Valve Static / No Emissions

Rev 032216
