

Novaspect Named Factory Representative for Enardo in North Dakota Upstream O&G Market

Novaspect is pleased to announce it is representing Enardo in the North Dakota oil and gas upstream market, leveraging over 80 years of expertise and providing the industry services and solutions to meet the challenges of environmental and safety standards.

“Adding the **Enardo** product line to our portfolio of Tank Management and Pressure Protection solutions provides significant opportunity for Novaspect to improve our customer’s process reliability, safety, and regulatory compliance”, said Joe Simchak, President of Novaspect.

The new additions to the Novaspect offering include:

- **Flame Arrestors:** End-of-Line and In-Line Deflagration and Detonation Arrestors designed to protect from vapor flashbacks while minimizing system pressure drop.
- **Pressure Vacuum Relief Valves:** In-Line and End-of-Line Stack Vent Valves and Pipe Away and Vent-to-Atmosphere Pressure Vacuum Relief Valves engineered with sealing technologies to reduce emissions, with advanced composite thermoplastic for harsh environments and with designs that allow for easy maintenance.
- **Emergency Vents:** Emergency Relief Vents, Emergency Relief Vents with Vacuum, and Emergency Relief Vents with electronic monitoring capability—wired or wireless—to alarm operators if the emergency vent is activated.
- **Gauge Hatches:** Dead Weight, Lock Down, and Spring-Loaded Thief Hatches specifically engineered to minimize fugitive emissions.

ENARDO™

About Enardo

Part of Emerson, Enardo is a pioneer in the conservation equipment industry that has evolved into one of the largest manufacturers of pressure vacuum relief valves, gauge hatches, emergency pressure relief vents, flame arrestors and detonation flame arrestors. Enardo equipment is critical to the safe operation of industries around the world, including loading terminals and storage tanks, and in the chemical/ petrochemical, pharmaceutical, landfill, wastewater, refining, automotive, industrial production, pulp and paper processing, and oil production markets.

About Novaspect, Inc.

Novaspect provides project engineering solutions, process automation technology, and life-cycle reliability and condition monitoring services to manufacturers and process industries. The company engineers and sells process controls, valves and distributed control systems, representing Emerson Automation Solutions through their offices in Illinois, Northwest Indiana, Wisconsin, Minnesota and North Dakota.
