

Regulator Technology Seminar 2017

Regulators Drive Reliability

Join us for expert advice, the latest technology and useful real-world experience.

Novaspect and Emerson are pleased to offer a **Regulator Technology Seminar** to be held at the Tinley Park Convention Center on April 26, 2017. Topics presented include: Operational Fundamentals, Troubleshooting and Fuel Gas Solutions, and Tank Pressure Management. Selection guidelines will be discussed using practical applications as seen in industrial facilities.

Fisher™ products and services provide industry-based solutions designed to reduce your total cost of ownership and improve your plant's operating profits. We are focused on developing cutting-edge technologies to improve your plant's reliability and performance, while helping you reduce safety, health, and environmental costs.

Presentations Include:

- Regulator Fundamentals–
 - Self-Operated • Pilot-Operated • Principles of Operation
- Fuel Gas and Process Gas Solutions
- Installation and Troubleshooting
- Steam Regulator Best Practices
- Tank Pressure Management Systems

Seminar presenters include:

- Mike Calaway, Emerson Director of Business Development
- Jeff Wolendowski, Novaspect Valve Subject Matter Expert
- Dennis Landrum, Emerson Regional Sales Manager
- Keith Bentley, Novaspect Valve Business Unit Manager

Please accept our invitation to attend this event. There is **NO FEE** to join the Regulator Seminar. Just follow the link below to register. If you have any further questions, please contact your Novaspect sales representative or Keith Bentley at: kbentley@novaspect.com .
