

# Rotating Equipment Reliability Forum 2017

## Minimize Downtime & Maximize Reliability

Learn how to reduce downtime, minimize maintenance costs, increase equipment availability, and improve plant safety using best practices of top performing industrial companies.

Please join us for a technical forum for maintenance and reliability professionals to learn and share knowledge with industry experts. This forum will highlight the major challenges and failure modes of different types of rotating equipment in order to understand and address root causes.

With an increased focus on critical assets, we will discuss optimum maintenance strategies to extend asset life, improve reliability, drive maintenance costs down, and increase plant safety.

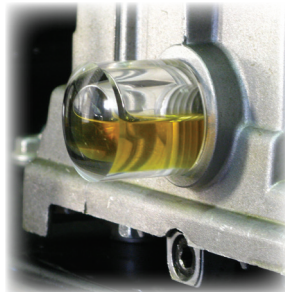

### Learn best reliability practices including:

- Advanced Fluid Sealing
- Optimum Lubrication
- Efficiency & Protective Coatings
- Vibration Analysis
- Equipment Alignment & Balancing
- Motor Diagnostics & Testing
- Other related topics to ensure the sustainability, maintainability, and performance of your most critical rotating assets.

### Primary Topics:

- Causes of Rotating Machinery Failures
- Precision Maintenance
- Fundamentals of Predictive Maintenance
- Condition Monitoring
- Extending Equipment Life

Please accept our invitation to attend this event. There is **NO FEE** to join the **Rotating Equipment Reliability Forum**. Just follow the link below to register. If you have any further questions or areas of particular interest, please contact your Novaspect sales representative.

## Rotating Equipment Reliability Forum 2017

### Location:

Novaspect Training Center  
 1124 Tower Road  
 Schaumburg, IL 60173  
 Phone: 847.956.8020

**Date:** Thursday, April 6th, 2017

**Times:** 8:00 AM Start  
 4:00 AM Finish

**Cost:** No Charge.

**Meals:** Lunch will be provided.

### Who would benefit from this?

Rotating Equipment Professionals, Maintenance Technicians, Maintenance Managers, Planners, Reliability Engineers, Operations Staff, and others.
