SHIFTCONNECTOR ®

Smart Access to Your Organizational Knowledge

Use Shiftconnector's AI-driven Smart Search to get faster access to data and tribal knowledge.

Shiftconnector enterprise platform empowers your manufacturing by providing an AI-powered semantic full-text search feature with a new level of intelligence. With a multifunctional solution that adapts to your organization's needs, Shiftconnector's Smart Search is like having a powerful assistant at your side 24/7 while continuously learning. With it, you can

- **Quickly find solutions** based on documented plant operations teams' tribal knowledge.
- **Capture the full knowledge** of your workforce across multiple systems and sites.
- **Accelerate your operations** by retrieving the most relevant information.
- **Recover quickly from disruptions** by finding fixes immediately.
- **Enhance data quality** by reducing duplication.

Reimagine plant operations reaching a new level of smart work. With nearly 20 years of providing digital solutions to the process industry, we worked with our customers to develop our AI-powered Smart Search.

Empower your team with Shiftconnector's AI-driven Smart Search!
